

Payment Plans

Offer flexible options that make education costs more manageable for students and families.

Flywire Payment Plans help make education more attractive and affordable by bridging the growing gap between available financial aid and rising tuition costs. As part of Flywire's comprehensive receivables solution, our traditional and on-demand Payment Plans automate the payment process while enabling students to budget tuition, fees, and other expenses over time.

Flywire helps simplify how your institution provides and processes payment plans by enabling you to:

- Easily set up, manage, and track traditional and on-demand payment plans
- Allow multiple authorized parties to make payments on student accounts
- Provide flexible domestic and international options, such as ACH, credit card, or debit card payments
- Proactively monitor accounts and engage payers to help increase timely payment
- Streamline office operations via self-service account access, reporting, and transaction processing

Flywire has been solving complex payment problems for education institutions since 2009. Today, our comprehensive receivables solution continues to empower education opportunities by enabling institutions to seamlessly receive payments from anyone, anywhere in the world—at any time.

Mix and match our education products to build your ideal solution:

-  Education Payments
-  Payment Plans
-  A/R Collect
-  Billing
-  Refunds
-  Virtual Terminal
-  Secure Checkout
-  Third-Party Tools

Future-proof your payment plans

Does your current solution provide payment plan options?

Flywire Payment Plans are designed to fully accommodate the needs of domestic and international payers. We offer traditional and on-demand plan options that help make education costs more manageable for students and families, regardless of their location.

Flywire has your students covered, whether they are local and want to use recurring card payments, or from Shanghai and want to have family members contribute via Alipay.

Would you like more flexibility setting up and managing payment plans?

Flywire empowers your staff to negotiate personalized repayment terms for students and their families—based on rules you establish. For over payments and other adjustments, students are also able to self serve with automatic plan rebalancing, payment card updates and more. Your staff no longer has to cancel and reset new plans just to facilitate simple adjustments.

Are you subject to compliance regulations when family members want to make payments?

With Flywire, students can authorize individuals to access and pay on their behalf in a fully Family Educational Rights and Privacy Act (FERPA) compliant manner. Our Payment Plans make it possible not only for students to invite family members and others to contribute to education costs, but also for your staff to easily see and set up multiple plans to support unique financial situations.

Are you providing a seamless payment experience across all devices?

Paying for education can be challenging, but the experience should feel simple and familiar regardless of whether paying from a desktop computer, a tablet, or a mobile device. With Flywire Payment Plans, your domestic and international students can use any device to seamlessly make and track payments anytime and from anywhere. Your staff can also use our automated communication hub to set up tailored email campaigns to deliver customized, impactful messages that promote self service and help increase timely payment.
